What is a pitch deck?

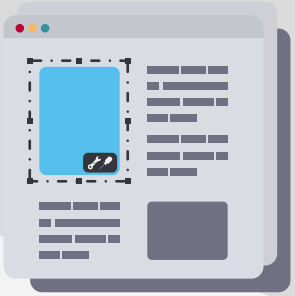

A pitch deck is a short presentation that entrepreneurs use to describe their business and present it to potential investors. It usually consists of about 10 slides with:

- An overview of the company's mission and the product or service offered
- Market opportunity
- Team, financials, etc.

The goal is to garner enough interest from investors so that they are motivated to invest in the business

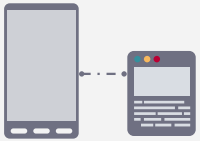

01

Introduction

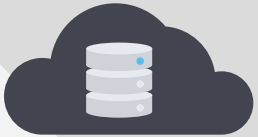

Let’s have a look

Mercury is the closest planet to the Sun and the smallest one in the entire Solar System. This planet’s name has nothing to do with the liquid metal, since Mercury was named after the Roman messenger god. Despite being closer to the Sun than Venus, its temperatures aren't as terribly hot as that planet’s. Its surface is quite similar to that of Earth’s Moon, which means there are a lot of craters and plains. Speaking of craters, many of them were named after artists or authors who made significant contributions to their respective fields. Mercury takes a little more than 58 days to complete its rotation, so try to imagine how long days must be there!

Introduction

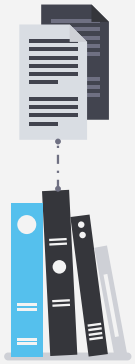

Our company

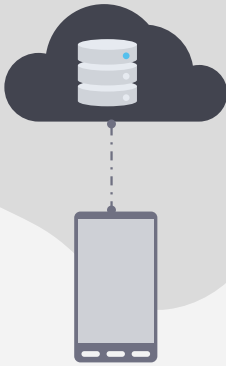

The introduction of your company in the pitch deck should include a brief overview of who you are and what you do. It should also include a brief description of why your product or service is unique and the value it provides to customers

Our idea

The “our idea” part of a pitch deck should include an explanation of your product/service, how it works, and what the customer value is. You should also explain the market opportunity for your product/service

Main ideas of a pitch deck

Presentation

A great presentation for a pitch deck should be concise, clear and easy to understand. Visual elements such as charts, graphs, images, and videos can help to make the presentation engaging

Investors

When it comes to picking investors for a pitch deck, it's important to research potential investors and understand their preferences, goals
and interests

Value

The value of a product is determined by how much customers are willing to pay for it. It's a combination of factors, including the quality of the product, its features, and how well it meets customer needs

Key ideas in market opportunity

Research new markets

Analyze existing customer needs and identify gaps in the market to find new opportunities

Innovative solutions

Utilize technology and customer feedback to come up with novel solutions that meet your customer's demands or needs

Stay ahead of trends

Monitor changes in the marketplace, such as shifts in consumer behavior or emerging technologies, to stay competitive and capitalize on new opportunities and trends

Seasonal spikes

Identify times of year when demand for certain products may spike, such as holidays or special occasions, and use these times to target customers or maximize sales

Six recommendations

Keep it simple

Structure your pitch deck clearly and make sure all the important points are easy to understand

Use visuals

Incorporate visuals or graphics to illustrate your message and keep the audience engaged

Keep it short

A good pitch deck should be concise and clear; avoid trying to cram in too much information

Make it memorable

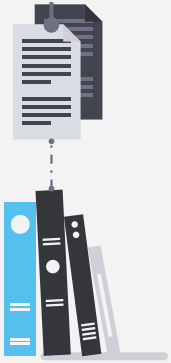

Include impactful stories, statistics, or facts that will help your audience remember your message afterwards

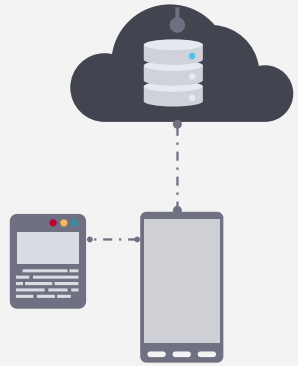

Test & iterate

Practice presenting your deck beforehand with friends or colleagues for feedback, then use this input to refine it further

Main points

A pitch deck is an overview of your business; focus on key points that get the most important ideas across

What makes your product unique?

Users

Speak about the target audience

Updates

Do you plan on updating it?

Timeline of your presentation

Provide a brief **overview** of the pitch deck's content

Engage the audience with a compelling **introduction**

Identify the customer's pain points and **challenges**

Describe how your product or service can **solve the problem**

Highlight the unique value proposition and **benefits** of your solution

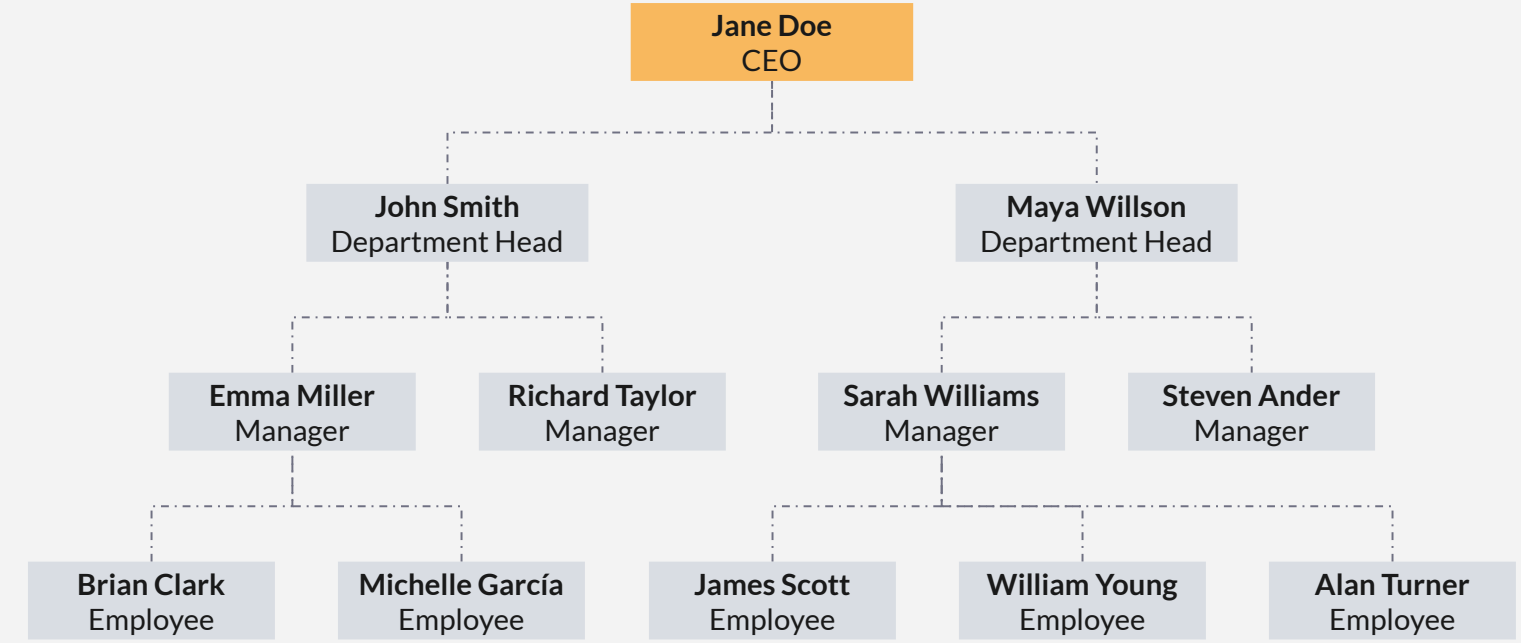

Analyze the target market size, growth potential, and competition briefly

Explain your financial needs and briefly outline your **allocation**

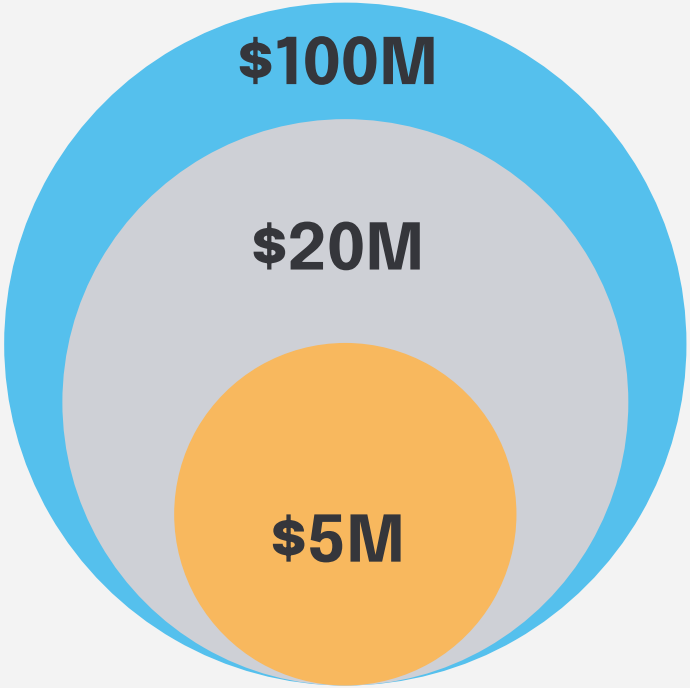

End with a clear and concise **call to action**

Organizational chart

Market size overview

Outer circle

Include the total size of the market, which represents the entire potential customer base for the product or service

Middle circle

Identify the target market for the product or service, which may be a subset of the total market. This could be based on factors such as demographics, geography, or specific needs

Inner circle

Indicate the current market size, which represents the portion of the target market that the company has successfully captured

Roadmap infographic

Initiative	Objective	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Understanding	Analyze and understand the needs of your target audience												
Conduct research	Research existing products in the industry and analyze how successful they are												
Brainstorm ideas	Generate ideas based on user feedback and research findings												
Develop a prototype	Create a basic version of the product to show investors												
Test for usability	Put the prototype through rigorous testing processes to ensure that it meets user requirements												
Analyze feedback	Understand the opinion of the users who tried your product												

KPI dashboard

Product	Units	Revenue	Return
Item 1	500	2,000,000	40
Item 2	1,000	50,750	10
Item 3	250	1,500,000	300
Item 4	500	2,000,000	40
Item 5	1,000	50,750	10
Item 6	250	1,500,000	300
Item 7	500	2,000,000	40
Item 8	1,000	50,750	10
